

COST AND ISSUE ANALYSIS
THERMOFAX PAPER, BACK-UP PAPER, AND SILK SCREENS
FOR THE PERIOD 1 JANUARY 1959
THRU
31 DECEMBER 1959

NOTES:

1. This study covered the period 1 January 1959 through 31 December 1959 since the data for that period is available from consolidated registers.
2. "Issues to BSO" represent materiel drawn by the Building Supply Officer for the use of Headquarters personnel. See Note 3c below.
3. "Issues to Others" represent issues to [REDACTED] 25X1
foreign field installations, and transfers of stock to Type I accountable stations. This figure does not represent total field usage since the following transactions are not included, and the information is not available to Supply Division:
 - a. Local procurement by [REDACTED] field stations. 25X1
 - b. Direct procurement by foreign field stations through the Supply [REDACTED]
 - c. Material pouched by Area Division offices which was drawn from the BSO. This tends to overstate the cost of Headquarters issues, and the extent of this activity is not known by the Supply Division.
4. Cost of Procurement represents receipts during the period, rather than orders placed.
